SIMLA, SATURDAY, AUGUST 27, 1960 (BHADRA 5, 1882)

Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2,

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 27th August 1960

Special Notice

The following Groups of Abridgments of Patents Specifications have been published and copies thereof are available for sale with the Manager of Publications, Civil Lines, Delhi at Re. 1/- per copy.

Copies are also available for sale at the Counter of the Government of India Book Depot, 8, Hastings Street, Calcutta on cash payment.

Group XXXV —Metal working.

(Containing Abridgments of Patent Specifications between Nos. 35,001 and 40,000).

Group XXXVI —Glass manufacture.

(Containing Abridgments of Patent Specifications between Nos. 35,001 and 40,000).

Group XXXVIII —Photography scientific and optical instruments.
(Containing Abridgments of Patent Specifications between Nos. 35,001 and 40,000).

Group XXXIX —Warfare, fire extinguishing and life saving.
(Containing Abridgments of Patent Specifications between Nos. 35,001 and 40,000).

Group XLVII —Compressing and conveying gases, injectors, reciprocating pumps and waterlifts.
(Containing Abridgments of Patent Specifications between Nos. 35,001 and 40,000).

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

11th August 1960

72950. Westinghouse Electric Corporation. Improvements in or relating to stabilization of cellulosic insulation and electrical apparatus embodying such insulation.

72951. Westinghouse Electric Corporation. Improvements in or relating to rectifier apparatus.

72952. A. Nazeer. Perpetual motion machine.

72953. F. E. Swain, David F. Wiseman & Sons, Ltd., and Gesellschaft der Ludw. von Roll'schen Eisenwerke A.-G. Method and means for sealing relatively movable members.

72954. Oil Seed Products, Inc. Treatment of mustard seed.

72955. Societe Technique Pour L'Utilisation De La Precontrainte (S.T.U.P.) (Procedes Freyssinet). Improvements in or relating to a support means for building structures.

72956. United States Rubber Company. Method of increasing the particle size of synthetic rubber latices.

72957. Knorr-Bremse G.m.b.H. Electro-pneumatic compressed air brake. (13th November 1959).

72958. Merck & Co., Inc. Chemical processes.

72959. H. Cordis. Cleaning device for drawing frames of spinning machines.

12th August 1960

72960. D. M. Patel. Improved press buttons or the like made from nylon or the like synthetic material.

72961. M. H. Rawley. Float stop motion for weaving looms.

72962. J. L. Bedi. Improvements in or relating to toys or the like.

72963. W. E. Brown and R. D. Macdonald. Talc beneficiation.

16th August 1960

72964. N. V. Sheth. An improved method of inserting a metal pin or the like in traverse slide.

72965. Les Laboratoires Francais De Chimiotherapie. Processes for the production of steroids and the compounds thus produced. (1st February 1960).

72966. Molins Machine Company Limited. Conveyor for use in apparatus for forming a continuous tobacco filler. (28th April 1958). [Divisional date 18th April 1959.]

72967. Anchor Serum Company. Improvements in or relating to packages.

72968. Shell Internationale Research Maatschappij N.V. Improvements in or relating to polymeric materials comprising polyolefins. (18th August 1959).

72969. Minnesota Mining and Manufacturing Company. Molded nonwoven fabric articles.

72970. Chas. Pfizer & Co., Inc. Therapeutic compositions. [Divisional date 19th March 1959.]

72971. Royonier Incorporated. Viscose process and improved low-shrink rayon.

72972. United States Atomic Energy Commission. Fuel elements for neutronic reactors.

72973. AMP Incorporated. Improvements in and relating to devices for stripping insulation from wires.

72974. Commissariat A L'Energie Atomique. Process for the isotopic enrichment or fractionation of hydrogen.
72975. The British Iron and Steel Research Association. Improvements in or relating to indicators.
72976. Inventa A.G. Fur Forschung Und Patentverwertung. Process for the isolation of the calcium salt of alpha-oxy-gamma-methyl thiokutyric acid.
72977. Secol Limited. Holder for photographic transparencies.
72978. Wallace & Tierman Incorporated. Cross-linking polyethylene.
72979. Hercules Powder Company. Improvements in or relating to method of determining end patterns of filament wound pressure vessels and apparatus for the same. (17th August 1959).
72980. Hercules Powder Company. Improvements in or relating to filament delivery systems and methods. (17th August 1959).
72981. Continental Oil Company. Production of alpha-olefins.
72982. American Cyanamid Company. 6, 16-dilower alkyl pregnenes and pregnadienes. (23rd March 1960).
72983. American Cyanamid Company. Substituted progesterones. (23rd March 1960).
72984. American Cyanamid Company. Polyamides.
72985. Siemens & Halske Aktiengesellschaft. Selective voltage output measurement. (20th August 1959).
72986. A. M. Vakil. An appliance (a sort of clamp), for holding ordinary torches available in the market working on the dry battery cells on a bicycle.
72987. R. R. Pardasani. Improvement in or relating to locks. [Addition to No. 66039.]
72988. M. P. Kasture. Commodity wise multiroller automatic card posting and voucher printing machine. (17th August 1960)
72989. Mrs. Serswatiben Shivprasad Thaker. Safety-ladder-step.
72990. Mrs. Serswatiben Shivprasad Thaker. Tar-gard cigarette holder.
72991. Mrs. Serswatiben Shivprasad Thaker. Phon-dial-lock.
72992. G. Scholl. Regenerative heat exchanger.
72993. W. R. Attwood. Improvements in or relating to structural material.
72994. Radio Corporation of America. Semiconductor devices.
72995. Unilever Limited. Dyeing human hair. (20th August 1959).
72996. Unilever Limited. Material handling. (21st August 1959).
72997. Elprochine S.A. Process for the alkylation of phenols with olefines. (2nd June 1960).
72998. Elprochine S.A. Process for the alkylation of phenols with alcohols. (2nd June 1960).
72999. Shell Internationale Research Maatschappij N.V. Emulsifiable oil.
73000. Standard Oil Company. Improvements in or relating to a process for preparing homogeneous copolymers.
73001. Fisons Pest Control Limited. Compositions of matter. [Divisional date 25th April 1959.]
73002. Rohm & Hass Company. Waterproofed coatings.
73003. AMP Incorporated. Improved method and clip for sealing plastic tubing.
73004. Imperial Chemical Industries Limited. Improvements in or relating to the manufacture of polymeric materials. (27th August 1959). [Addition to No. 68524.]
73005. Farbenfabriken Bayer Aktiengesellschaft. Thiophosphoric acid esters. (22nd April 1960).
73006. United States Steel Corporation. Control for strip processing line.
73007. C. M. Sweet. Multiple pen-recording means for reproducing a direct-reading 4-channel (or 3 channel composite) parallel rectilinear printing telegraph code.
73008. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to slag-forming annular bodies for use in stud welding.
73009. N. V. Philips Gloeilampenfabrieken. Dual I. F. channel radio receiver.
73010. Hercules Powder Company. Improvements in or relating to the preparation of polyesters.
73011. Ciba Limited. Metalliferous azo-dyestuffs and process for their manufacture.
73012. Fiat Societa Per Azioni. Hydraulic brake mechanism for vehicles.
73013. Fiat Societa Per Azioni, and P. S. Baldwin. Hydraulic brake booster.
73014. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Process for the manufacture of water-insoluble azo-dyestuffs having a high tinctorial strength.
73015. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of tetrahydroisoquinoline derivatives.
73016. J. Stone & Company (Deptford) Limited. Improvements relating to electrical inverter arrangements. (18th August 1959).
73017. Hitachi Limited. Bearings for electric measuring instruments and the like apparatus.
73018. Hitachi Limited. Electro-magnetic device for integrating wattmeters.
73019. Hitachi Limited. Electro-magnetic device for integrating wattmeters.
73020. Hitachi Limited. Terminal box for measuring instrument.
73021. Hitachi Limited. Braking device for induction type measuring instruments.
73022. Hitachi Limited. Bearings for measuring instruments and the like apparatuses.
73023. Hitachi Limited. Device for preventing collision and deformation of rotary disc of induction type measuring instruments.
73024. Badische Anilin- & Soda-Fabrik Aktiengesellschaft. Flameproofed plastic compositions and their production.
73025. Badische Anilin- & Soda-Fabrik Aktiengesellschaft. Pigmented systems.
73026. N. S. Levi, Smt. Rachel Naji Levi, Smt. Hannah Jacob Benjamin and Smt. Sarah Ezekiel. Composite soap-steelwool pad for cleansing.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

65816. Keshri Mull Kundan Mull. Improvements in or relating to umbrellas. [Addition to No. 47890.] Accepted on 11th August 1960.

Sliding cap engaging cylindrical piece having stops on both ends and fitted on umbrella rod.

65849. Licentia Patent-Verwaltungs-G.m.b.H. Step-control for electric motor drives. Accepted on 16th August 1960.
Comprises a control transducer, a look-transducer and rectifiers, the voltage being applied through control contacts.
65852. Elektrophysikalische Anstalt Bernhard Herghaus. Surface treatment of bodies by glow discharge process. Accepted on 17th August 1960.
In which distribution of foreign materials diffused into the body surface is influenced by measures intended to increase the heat dissipation from the surfaces involved in the process and at the same time by increasing the discharge energy on these surfaces by the energy increase required for maintaining the predetermined temperature.
65891. Council of Scientific and Industrial Research. A process for the conversion of coal tar or coal tar fractions to high speed diesel oil and gasoline. Accepted on 12th August 1960.
Hydrogenating at 300–450°C, 100–200 atm. pressure and oil space velocity of 0.5 cc-l. cc of oil with catalyst of sulphide or oxide of sixth group of hydrogen space velocity of 1000–1500 cc of H₂/cc of catalyst/hr.
66260. Bataafse Petroleum Maatschappij N. V., formerly known as N. V. De Bataafsche Petroleum Maatschappij. Process for the removal of soot from gases. Accepted on 11th August 1960.
Comprises adding water to soot-containing gas to saturate and simultaneously cool it to a temperature less than 40°C below dew point.
66502. Verwaltungsgesellschaft der Werkzeugmaschinenfabrik Oerlikon. Improvements in electro-pneumatic compressed air brakes for vehicles. Accepted on 17th August 1960.
Comprises pressure chambers and control valves each having an electromagnet, fed from an electronic amplifier provided with a negative feed back.
66714. Babcock & Wilcox Limited. Improvements in pulverising mills and in classifiers for use in such mills. (14th February 1958). Accepted on 11th August 1960.
Having grinding zone, material feeding means and means for causing upward flow of elastic fluid past grinding zone to carry material to classifying means including an impellor with upright axis of rotation for radially outward movement of oversize particles around the axis towards circumscribing wall from which chutes lead downwardly and radially inwardly.
66739. Dr. K. Ziegler. Process for the reaction of organic aluminium compounds with olefines. Accepted on 16th August 1960.
Treating organic aluminium compound with olefine in presence of aluminium compound having 3 valencies bonded to carbon.
66766. The General Electric Company Limited. Improvements in or relating to the manufacture of thermoelectric devices. (20th February 1958). Accepted on 17th August 1960.
A method wherein a plurality of thermocouples are connected electrically by means of a jig of egg-box forms.
66776. Eastman Kodak Company. Ethers of vitamin A alcohol. (11th December 1958). Accepted on 11th August 1960.
By reacting vitamin A alcohol and an alkyl iodide in the presence of an alkali metal hydroxide in an organic solvent.
66778. The English Electric Company Limited. Improvements in and relating to electrical impedance networks. (28th February 1958). Accepted on 16th August 1960.
Wherein the voltage drop across a series impedance is independent of the current passed through the network for the normal direction of power transfer therein, and varies with the current for the reverse direction of power transfer.
66779. J. R. Geigy A.-G. Process for the production of new sulphamyl benzamides. Accepted on 17th August 1960.
Reacting a reactive functional derivative of substituted 3-sulphamyl benzoic acid with an amine.
66786. Montecatini Societa Generale Per L'Industria Mineraria E Chimica and K. Ziegler. Improved process for the low pressure polymerisation of alpha-olefins. Accepted on 17th August 1960.
Wherein polymerisation is effected in the absence of solvents and at a temperature of 20–90°C, the monomer being maintained in a liquid phase.
66968. J. Martin. A cutter unit primarily for use in ejection seats. (14th March 1958). Accepted on 12th August 1960.
Comprises a cutting head formed with an open sided recess, a knife mounted for guided a movement through said recess, means for impelling forcibly the said knife and means for controlling the operation of said impelling means.
67032. Parks-Cramer Company. Apparatus for the removal of dust. (16th January 1959). Accepted on 16th August 1960.
Wherein the secondary collector is divided into compartments each connected to the main duct through valves, controlled electrically.
67156. Chas. Pfizer & Co., Inc. Pharmaceutical composition. Accepted on 17th August 1960.
Benzothiazane-3-one compounds are incorporated in carriers excluding water alone or organic solvent alone.
67295. Olin Mathieson Chemical Corporation. Synthesis of steroids. Accepted on 16th August 1960.
An 11-oxygenated-12-halogen-3, 20-diketo-steroid is subjected to the oxygenating activity of streptomyces roseochromogenus.
67622. R. C. Sabins. A method and control system for cathodically protecting a structure immersed in electrolyte. Accepted on 16th August 1960.
Establishing a regulating circuit including a reference means in the electrolyte and constantly impressing a current on said means.
67737. M. A. Chaudary. An apparatus for pumping water and generating power from flowing rivers. Accepted on 16th August 1960.
Flowing water of the river is made to rotate a turbine or turbines continuously by arranging the frame or frames carrying turbines by a floats on the surface of running water.
67739. Westinghouse Brake & Signal Company Limited. Improvements in automatic control valve devices for variable load fluid pressure operated braking apparatus. (30th May 1958). Accepted on 16th August 1960.
Wherein the driving member is engaged drivingly with the driven member by a clutch over all but an initial and substantially invariable portion of fixed travel.
67776. Director, Indian Institute of Science, Bangalore. Means for stretching wires, gripping and anchoring same for prestressed concrete units. Accepted on 11th August 1960.
Comprises a gripping and anchoring device at one face of concrete unit and a stretching and anchoring device at the other end.
67777. Director, Indian Institute of Science, Bangalore. A prestressed pole or post. Accepted on 11th August 1960.
Formed of precast-units, joined together and prestressed held by steel plate bracings.
67779. Council of Scientific and Industrial Research. A process for briquetting of non-caking coal slacks and carbonisation of briquettes to produce a strong coke. Accepted on 12th August 1960.
Briquetting non-caking coal slacks and carbonising the briquettes after they are matured in a current of air or oxygen enriched air at elevated temperature.

67819. Ciba Limited. New quinone derivatives and process for their manufacture. Accepted on 11th August 1960.

A 2:5-dihalogen-3:6-bis-acylamino-para-benzo-quinone of which the acylamino groups contain radicals of aliphatic carboxylic acids containing 7 to 18 carbon atoms, in reacted with an ethylenimine.

67821. Council of Scientific and Industrial Research. A process for the production of fungicides from coal tar. Accepted on 11th August 1960.

Chlorinating coal tar oil fractions boiling between 180°C and 360°C.

68029. Robert Bosch GMBH. Improvements in the manufacture of the centre electrode of sparking plugs. [Addition to No. 52032.] Accepted on 11th August 1960.

Improvement in Indian specification No. 52032 wherein a sparking point of prefabricated rare metal projects beyond the face of the blank and by extrusion is firmly anchored to the said blank.

68245. H. Yokota and S. Yokota. Fluid prime mover of rotary piston type. Accepted on 16th August 1960.

Comprises two pairs of cylindrical rotors having angularly displaced and projected piston arms a rotor shaft and a pair of timing gears attached thereto.

68267. J. G. Wallace. Hydraulic core drill. (4th July 1958). Accepted on 16th August 1960.

Comprises a frame having supporting means at the rear of said frame and a drill mounted on said frame for longitudinal sliding movement.

68275. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Unsaturated aliphatic acids and esters thereof and process for the manufacture of the same. (5th July 1958). Accepted on 12th August 1960.

A halogeno compound of the formula $\text{CH}_2(\text{CH}_2)_a(\text{C} \equiv \text{C}-\text{CH}_2)_b$, hal. is condensed with a compound of the formula $\text{CH} \equiv \text{C}-\text{CH}_2(\text{CH}_2)_c\text{COOH}$ in a grignard reaction in the presence of a cuprous salt, and the product is, if desired, reduced and/or esterified ($S=1$ to 4; $b=1$ to 8).

68325. Boving And Co. Limited. Improvements in and relating to the mounting and control of needles in pelton impulse hydraulic turbines. (14th July 1958). Accepted on 12th August 1960.

Comprises a sleeve spaced coaxially around and carrying the needle, mounted to slide axially in an internal cylindrical bearing.

68327. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to transistors. Accepted on 11th August 1960.

Characterized in that the characteristic diffusion length of the diffusion layer is atleast 0.5μ .

68329. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to a method of applying a protective lacquer layer around electrical component parts. Accepted on 11th August 1960.

Characterized in that the body is immersed into the lacquer to such a depth that the lacquer closes over the top head surface after which the component is withdrawn from the lacquer with such a speed and over such a path that on the head surface as a base is left a practically conical lacquer mass.

68331. Pertrix Union Limited. A rod shaped electric torch. Accepted on 12th August 1960.

Slide contact is fixedly mounted in the top portion of the torch near the lens bulb and in front of the battery.

68342. Mead Johnson & Company. Process of preparing 1-methyl-3-pyrrolidyl-methyl alcohol. Accepted on 11th August 1960.

By reducing a 1, 3-dicarbalboxy pyrrolidine with a complex metal hydride.

68358. Tiox-Tinten Und Klebstoffwerk Gesellschaft M.B.H. Protecting finger tab and ripper for adhesive tapes. Accepted on 16th August 1960.

There are atleast one smooth face by which the tab is attached to the adhesive face and atleast one ripping edge.

68450. Standard Telephones and Cables Limited. Equipment for continuously winding insulated electric conductors. (22nd July 1958). Accepted on 17th August 1960.

Including drive motor, means for causing the motor to drive take-up reels, means automatically to continue driving one take-up reel and to drive another, one at same speed, means to automatically transfer conductor to other take-up reel and means for automatically cutting the conductor at a position between the two reels.

68462. Union Carbide Corporation. Conveyor system for removing roof falls during continuous mining. (11th May 1959). Accepted on 16th August 1960.

Comprising train of horizontal conveyors, each conveyor having wings sufficiently wide to catch falls from the entire roof area.

68632. Mount Hope Machinery, S.A. Improvements in expanding and contracting rolls. Accepted on 11th August 1960.

Having longitudinal curvature which may be varied to change the expanding a contracting effect of a roll upon travelling flexible sheet material which may be in engagement with the roll.

68700. Davidson & Company, Limited. Improvements in or relating to rotary fans, pumps and the like. (19th June 1959). Accepted on 17th August 1960.

Trailing edge portion of each blade is divided so as to provide a fixed sub-portion and a movable sub-portion sweeping substantially the same path.

68800. H. Oetiker. Hose fixing device, particularly for fire extinguishing hoses. Accepted on 16th August 1960.

Providing one ring for flexibly compressing around the periphery of the hose to press the same into grooves in the nipples.

Opposition Proceedings

(1)

The opposition entered by Badische Anilin- & Soda-Fabrik Aktiengesellschaft, to the grant of a patent on application No. 59595 made by R. A. Cole and K. K. Nag and which was notified in part III, Section 2 of the Gazette of India, dated the 12th July 1958, has been treated as withdrawn.

(2)

An opposition has been entered by Jeewanlal (1929) Limited to the grant of a patent on application No. 67359 made by Occhavilal Mohanlal Parikh.

Patents Sealed

48314. 57344. 63970. 64453. 64585. 64751. 64812. 64831. 64912. 65010. 65015. 65161. 65192. 65193. 65268. 65294. 65297. 65304. 65320. 65357. 65403. 65444. 65498. 65507. 65561. 65680. 65876. 65900. 66104. 66115. 66371. 66418. 66434. 66446. 66586. 66695. 66738. 66831. 67084. 67357. 68206.

Amendment Proceedings

(1)

The amendment proposed by The British Rayon Research Association in respect of Patent application No. 55795 as advertised in the Gazette of India Part III, Section 2, dated the 30th April 1960 has been allowed.

(2)

The amendment proposed by Baltzar Carl Von Platen in respect of Patent Application No. 64809 as advertised in the Gazette of India, Part III, Section 2, dated the 7th May 1960 has been allowed.

(3)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that N. V. De Bataafsche Petroleum Maatschappij now re-named Bataafse Petroleum Maatschappij N. V., a Netherlands Company, carrying on business as Manufacturers, at 30, Carel van Bylandtlaan, The Hague, The Netherlands, seek leave to amend the

name, nationality and address of the applicant in the application and specification in respect of Patent Application No. 65908. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(4)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that N. V. De Bataafsche Petroleum Maatschappij now re-named Bataafse Petroleum Maatschappij N. V., a Netherlands Company, carrying on business as Manufacturers, at 30, Carel van Bylandtlaan, The Hague, The Netherlands, seek leave to amend the name, nationality and address of the applicant in the application and specification in respect of Patent Application No. 65909. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(5)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that N. V. De Bataafsche Petroleum Maatschappij now re-named Bataafse Petroleum Maatschappij N. V., a Netherlands Company, carrying on business as Manufacturers, at 30, Carel van Bylandtlaan, The Hague, The Netherlands, seek leave to amend the name, nationality and address of the applicant in the application and specification in respect of Patent Application No. 65988. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(6)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that N. V. De Bataafsche Petroleum Maatschappij now re-named Bataafse Petroleum Maatschappij N. V., a Netherlands Company, carrying on business as Manufacturers, at 30, Carel van Bylandtlaan, The Hague, The Netherlands, seek leave to amend the name, nationality and address of the applicant in the application, specification and drawings in respect of Patent application No. 66122. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(7)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Charles Scott Prendergast Engineer, of Deri House, Old Fort Road, Shoreham-by-Sea, Sussex, England, a British subject, seek leave to amend the name, nationality and address of the applicant in the application, specification and drawings in respect of Patent application No. 66244. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(8)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Charles Scott Prendergast Engineer, of Deri House, Old Fort Road, Shoreham-by-Sea, Sussex, England, a British subject,

seek leave to amend the name, nationality and address of the applicant in the application, specification and drawings in respect of Patent application No. 66245. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(9)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that W. H. Sanders (Electronics) Limited, a Company registered under the laws of Great Britain, of Gunnels Wood Road, Stevenage, in the County of Hertford, England, Manufacturers, seek leave to amend the name, nationality and address of the applicant in the application, specification and drawings in respect of Patent Application No. 67004. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.
